

David Chidi Benson

Junior FrontEnd Developer

Summary

Front-End Developer with hands-on experience building responsive, user-friendly websites and web applications. Skilled in HTML, CSS, JavaScript, and currently expanding my knowledge with modern frameworks (React), with a strong focus on creating clean, accessible, and visually appealing interfaces. Passionate about turning designs into functional code, optimizing performance, and delivering seamless user experiences across all devices. Eager to apply skills in responsive web design and development and grow within a dynamic organization.

Experience

Apr 2025- Current **Junior FrontEnd Developer**
Aptech , Umuahia, Abia State, Nigeria

Education

2017-2024 **O level certificate**
Marigold Montessori School , Umuahia

- Secured A grades in English and Science subjects

Projects

Portfolio Website - Designed and developed a personal portfolio site using HTML, CSS, and JavaScript, showcasing skills, projects, and contact information in a fully responsive layout.

Responsive Landing Page - Built a modern landing page for a brand using HTML5, CSS3 (Flexbox & Grid), ensuring cross-device compatibility and clean UI design.

To-Do List App - Developed a simple task management app with HTML, CSS, and JavaScript, featuring task creation, deletion, and local storage for persistence.
